D. D/PRG/IC Memorandum for the Record, 17 Jan 74,  
subject: Phase II of the Middle East Post Mortem

1. We urgently need to take a close look at both the commit-  
ments we (and the DCI) have made and the requests received from  
consumers to follow on the work done in Reference A.

2. Please review carefully each of the recommendations, requests  
or promises made in references. In those cases where action is required  
by IC Staff, we must program our activities, i. e., assign work tasks,  
and set target dates. (This will require a determination of priorities.)  
In those cases where action is required by other elements of the  
community, we must assign an action officer to follow up.

3. It is also desirable to establish a form and procedure for  
periodic reporting on progress.
